

# L'ALTRA PIETRA<sup>®</sup>

THE HIGH QUALITY  
OUTDOOR PAVING

## RAISED LAYING WITH SUPPORT

Floating paving is composed by a series of modular and adjustable supports, that easily and safely adapt to all paving types. Designed to guarantee an homogeneous surface, without bringing radical changes to the existing structure, as well as to eliminate humidity problems, water infiltrations, passage of electric cables and pipes, floating paving solutions allow easy and quick inspections and rainwater efficient drainage.

### INTENDED USE:

- Residential areas
- Commercial areas
- Terraces
- Garden, courtyard or patio

## INSTALLATION

### EXAMPLE OF RAISED LAYING

- A L'ALTRA PIETRA<sup>®</sup> tiles
- B Adjustable/fixed supports
- C Waterproof sheath
- D Screed with maximum slope of 5%

## LAYING ADVISE

The proposed diagrams and indications are purely indicative of the type of application: please refer to the specific regulations in force in your country in order to lay the floor to the highest technical standards.

### WHAT YOU NEED:

Tiles

Level

Support

Adjusting key

### INSTRUCTIONS:

1 Realize a state of art screed and clean the residues.

2 Place the supports in relation to the dimensions of the used tile.

3 Verify the proper levelling of the laid slabs (slope ≥ 1%).

4 When laying, check that the joint width is always constant.

5 Finished the laying, adjust the supports height with the adjusting key.
